

EXCURSIONS AND SERVICE EVENTS POLICY

Quality Area 2

PURPOSE

This policy will provide guidelines for Rowen Street Kindergarten Inc. to plan and conduct safe and appropriate excursions, regular outings, and service events.

POLICY STATEMENT

Values

Rowen Street Kindergarten Inc. is committed to:

- providing opportunities through the educational program for children to explore and experience the wider environment and broader community
- ensuring that all excursions, regular outings and service events are accessible, affordable and contribute to children's learning and development
- ensuring the health, safety and wellbeing of children at all times, conducting risk assessments and ensuring authorisations are obtained from parents/guardians
- providing adequate supervision of all children during excursions, regular outings and service events
- promoting road safety education and safe active travel for children.

Scope

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Rowen Street Kindergarten Inc. including during offsite excursions and activities.

Ensuring sunscreen and hats (if required) is taken on excursions and is available as required for service events and that outdoor excursion venues provide adequate shade	R	√	√		√

Background and legislation

BACKGROUND

Excursions and service events are planned to extend the educational program and further develop the current interests of children. The Victorian Early Years Learning and Development Framework states that “Participating in their communities strengthens children’s sense of identity and wellbeing”. The purpose and educational value of each excursion or service event should be clearly communicated to parents/guardians.

When planning excursions and service events, it is important to ensure that they are inclusive of all members of the service community. Consideration must be given to any extra costs involved and the ability of families to pay these costs. Consideration must also be given to ensuring that all children can attend regardless of their abilities, additional needs or medical conditions. Clear procedures must be developed and followed, and these should be communicated to parents/guardians.

A risk assessment must be carried out for each excursion to determine any risks to children’s health, safety or wellbeing before permission is sought from parents/guardians (Regulations 100, 101). The risk assessment must identify each risk and specify how the risk will be managed and/or minimised (Regulation 101). Written authorisation for the child to attend the excursion must be obtained from a parent/guardian or person named in the child’s enrolment record before the child can be taken outside the service premises. For details regarding information to be included in the written authorisation.

Active travel excursions near the service have a range of benefits including:

- children and staff being physically active
- providing the opportunity to practice road safety
- engaging with the community

Early childhood road safety education aims to reduce the risk of serious injury and death from road trauma. It also aims to lay the foundations for children to become safe and independent road and transport users in the future. Road safety education is an important part of a holistic approach to keeping children safe around traffic and in the road environment. Effective traffic skills are best learnt if they occur in a real environment i.e., using crossings and traffic lights.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011
- National Quality Standard, including Quality Area 1: Educational Program and Practice and Quality Area 2: Children’s Health and Safety

Definitions

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

Attendance Record: Kept by the service to record details of each child attending the service including name, time of arrival and departure, signature of person delivering and collecting the child or of the nominated supervisor or educator

Excursion: An outing organised by the education and care service. The written permission of parents/guardians or a person named on the child's enrolment record as having lawful authority must be obtained before educators/staff take children outside the service premises.

Risk assessment: (In the context of this policy) a risk assessment must identify and assess any hazard that poses a risk to a child's health, safety and/or wellbeing while on an excursion, and specify how these risks will be managed and/or minimised (*Regulation 101*). Risk assessments must consider:

- the proposed route and location of the excursion
- any water hazards
- any risks associated with water-based activities
- transport to and from the proposed location of the excursion
- the number of adults and children participating in the excursion
- the number of educators or other responsible adults who will be providing supervision given the level of risk, and whether or not specialised skills are required
- the proposed activities, and the impact of this on children with varying levels of ability, additional needs or medical conditions
- the proposed duration of the excursion, and the impact of this on children with varying levels of ability, additional needs or medical conditions
- any items/information that should be taken on the excursion e.g., first aid kit, emergency contact details for children, medication for children with known medical conditions (such as asthma, anaphylaxis and diabetes) and a mobile phone.

Service event: A special activity, event, visitor or entertainment organised by the education and care service that may be conducted as part of a regular session at the service premises or as an excursion.

Evaluation

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- regularly seek feedback from everyone affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service's policy review cycle, or as required
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (Regulation 172 (2)).
